## GIFFORD PINCHOT NATIONAL FOREST

The Gifford Pinchot National Forest is one of the oldest National Forests in the United States. Included as part of the Mt Rainier Forest Reserve in 1897, this area was set aside as the Columbia National Forest in 1908, and subsequently renamed the Gifford Pinchot National Forest in 1949. Located in southwest Washington State, the forest comprises about 1.4 million acres and includes the Mount St. Helens National Volcanic Monument established by Congress in 1982. While Mt. Adams Ranger District is located in a rural setting, several of the larger metropolitan population areas in the Pacific Northwest access the forest for many types of recreational activities. The Portland-Vancouver metro area is located within a couple hours' drive of the district.

Candidates may learn about the Forest, our programs, and our opportunities by visiting its award-winning web site. <http://www.fs.fed.us/gpnf>
